CITY OF EL RENO POLICY AND EMPLOYEE HANDBOOK

PREFACE:

This policy and employee handbook is intended to provide information about employment policies for employees of the City of El Reno. A copy will be provided to each employee. It is the responsibility of each employee to become familiar with the material contained in the handbook. The handbook will be updated on a regular basis, and employees will have access to any updates as they are issued. Nothing contained herein is intended to create an employment contract. All employees are at will employees.

The purpose of this handbook is to serve as a guide to administrative action concerning various personnel activities and transactions. This handbook supersedes all previous publications pertaining to personnel policies and procedures.

This handbook applies to both Exempt and Non-Exempt employees unless modified by collective bargaining agreements or specifically provided otherwise.

101. General Employment Policy

1. Employment Policy Established by Council

The goal of the City of El Reno is to attract and retain the best-qualified personnel for positions in the Exempt and Non-Exempt categories. To achieve this goal, the City of El Reno provides an opportunity for professional growth and personal satisfaction, to enable you to enhance your career goals, and to promote competitive participation based on merit and fitness.

2. City Charter Superiority

The provisions of the City Charter will supersede conflicting rules and regulations in this manual in any operating procedures to implement these policies or in any collective bargaining agreement.

3. Labor Agreements

Employees covered by labor agreements will be afforded such rights as are contained in those bargaining agreements. These policies will apply to employees covered by labor agreements, except to the extent that a labor agreement contains a provision expressly covering a subject that also is covered in these policies, in which case the labor agreement's provision shall apply.

4. Authority of the City Manager

The City Manager has the sole responsibility for granting waivers or amendments to any administrative or personnel policy or procedure, subject to restrictions of the City Charter. The City Manager may also give administrative directives or operating

procedures to effectively convey the intent of these policies. Copies of such directives or procedures shall be provided to all City employees. References to the City Manager in the policies may, on occasion, be substituted for his designee except as required by the City Charter.

5. Changes to Departmental Work Rules

Any departmental work rule or regulation shall be furnished in writing to the affected employees with a copy going to the City Manager. Changes to work rules that impact a mandatory subject of bargaining will also be furnished to the respective bargaining agent prior to implementation.

6. Applicability of Policies

The provisions in this handbook shall apply to exempt and non-exempt personnel unless the specific provision of a policy can be logically construed to only cover non-exempt employees. This handbook does not apply to City Council Members, Municipal Judge, Members of Boards and Commissions, Volunteers and other personnel who serve without pay, Consultants, and Counsel rendering temporary professional service.

102. Equal Opportunity Policy

It is the policy of the City of El Reno that an individual's race, color, religion, sex, disability, age, or national origin are not and will not be considered in any personnel or management decisions. We affirm our commitment to these fundamental policies.

All recruiting, hiring, training, and promoting for all job classifications is done without regard to race, color, religion, sex, disability, or age. All decisions on employment are made to abide by the principle of equal employment.

All promotion decisions will continue to be made in accordance with equal employment opportunity principles and only valid job requirements will be used.

All other personnel actions such as compensation, benefits, and transfers will be administered without regard to race, color, religion, sex, age, disability, or national origin.

Any employee of the City of El Reno, whether exempt or non-exempt, who practices discrimination or harassment based on a protected characteristic will be subject to disciplinary action. If employees believe an incident of discrimination or harassment is offensive or objectionable, causes discomfort or humiliation, creates a hostile environment, or interferes with job performance or advancement opportunities has occurred, they are required to bring the matter promptly to the attention of your supervisors, department head, the Human Resource Director or City Manager. Employees may report discrimination or harassment to the supervisor, department head or manager with whom employees feel comfortable.

1. Complaint Procedure

If an employee or prospective employee feels that they have been discriminated against, they are required to report such discrimination, and should do so by

contacting the Human Resource Director. The employee or prospective employee should file a complaint in writing with the Human Resource Director who will conduct an investigation of the complaint and report to the person making the complaint and the City Manager within two calendar weeks or such time as is reasonably prompt, together with any recommendations for corrective action if necessary. The City may use mediation to attempt to settle the dispute. The City Manager shall have the final decision on corrective action.

103. Equal Employment Opportunity Affirmative Action

While the City of El Reno is committed to developing and implementing equal opportunity for employees and applicants, continuing positive actions must be taken to ensure successful fulfillment of this commitment. At the City of El Reno, the work performance of each individual supervisor and department head will include an evaluation of equal employment opportunity efforts and results.

104. Equal Employment Opportunity Personnel Records

Your personnel record is property of the City of El Reno and is maintained in the Human Resource Director's office. It contains information on your employment and salary history since your arrival at the City of El Reno. We acknowledge and support your right to privacy. This is why access to your records is carefully protected and particular attention is paid to proper usage of the information.

If you wish to review your file, contact the Human Resource Director in writing.

105. Americans with Disabilities Act

It is the policy of the City of El Reno to abide by both the letter and spirit of the law in all aspects of the Americans with Disabilities Act (ADA). The act prohibits discrimination in all employment practices, including job application procedures, hiring, firing, advancement, compensation, training, and other terms conditions, and privileges of employment. It applies to recruitment, advertising, tenure, leave, fringe benefits, and all other employment-related activities.

The City of El Reno prohibits all discrimination against "qualified individuals with disabilities." This includes applicants for employment and current employees. An individual is considered to have a "disability" if he has a physical or mental impairment that substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such impairment. The City also forbids discrimination against persons because they have a known association or relationship with an individual with a disability.

The ADA applies to impairments that substantially limit major life activities such as seeing, hearing, speaking, walking, breathing, performing manual tasks, learning, caring for oneself, and working.

As an example, an individual with epilepsy, paralysis, human immunodeficiency virus (HIV) infection, acquired immune deficiency syndrome (AIDS), a substantial hearing or visual impairment, mental retardation, or a specific learning disability may be covered, but an

individual with a minor, non-chronic condition of short duration, such as a sprain, broken limb, or the flu, generally would not be covered.

The City of El Reno considers a qualified individual with a disability as a person who meets legitimate skill, experience, education, or other requirements of an employment position that he holds or seeks.

The City of El Reno requires the ability to perform "essential" functions of the job to assure that an individual with a disability will not be considered unqualified simply because of inability to perform marginal or incidental job functions. If the individual is qualified to perform essential job functions except for limits caused by a disability, we will consider whether the individual could perform these functions with a reasonable accommodation.

The City of El Reno will not ask or require a job applicant to take a medical examination before making a job offer. Except under lawful circumstances, the City will not make any pre-employment inquiry about a disability or the nature and severity of a disability. But we may ask questions about the ability to perform specific job functions and may, with certain limitations, ask an individual with a disability to describe or demonstrate how he would perform these functions.

We will condition our job offer on the satisfactory result of a post-offer medical examination or medical inquiry, where this is required of all entering employees in the same job category. We reserve the right to use a post-offer medical examination to disqualify an individual if it demonstrates that the individual would pose a "direct threat" in the workplace (i.e., a significant risk of substantial harm to the health or safety of the individual or others) that cannot be eliminated or reduced below the "direct threat" level through reasonable accommodation.

We also retain the right to conduct employee medical examinations where there is evidence of a job performance or safety problem, as required by other federal laws, to determine current "fitness" to perform a particular job, or on a voluntary basis as part of employee health programs.

Information from all medical examinations and inquiries will be kept apart from general personnel files as a separate, confidential medical record, available only under limited conditions.

Tests for illegal use of drugs are not medical examinations under the ADA and are not subject to restrictions of such examinations. We reserve the right to conduct test for controlled substances according to City of El Reno policy and current federal, state, and local laws.

If an employee feels that he has been subjected to discrimination based on a disability by the City of El Reno, a vendor, a customer, etc., the employee is required to report such discrimination to a supervisor, manager, department head, Human Resource Director or City Manager. The employee should file a complaint in writing with the Human Resource Director.

The City of El Reno is dedicated to protecting the rights provided to individuals with disabilities by the ADA. Accordingly no one in a position of responsibility will retaliate against anyone who asserts the rights provided by the ADA or any state anti-discrimination laws.

106. Accommodation

The City of El Reno will provide reasonable accommodation to enable a qualified applicant to perform the essential functions of the job, which he is seeking, and to enable a qualified employee with a disability to perform the essential functions of a job currently held.

Modifications or adjustments may be required in the work environment, in the manner or circumstances in which the job is customarily performed, or in employment policies. Our goal is to allow an employee with a disability to enjoy the benefits and privileges of employment, equal to those enjoyed by similarly situated employees without disabilities.

We will not be able to make accommodations that would impose an undue hardship on the operation of the City. The Americans with Disabilities Act defines an undue hardship as an action that requires significant difficulty or expense. Each accommodation request will be handled on a case-by-case basis and every effort will be made to comply with the Act.

107. AIDS

The City of El Reno treats AIDS and HIV infection as disabilities in accordance with our policy on Equal Employment Opportunity (EEO) and the requirements of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973. In addition to the Provisions of the City of El Reno's policies on nondiscrimination and reasonable accommodation for disability, the following guidelines are intended to assist managers in maintaining a work environment that is responsive to the workplace issues created by AIDS and HIV infection and the concerns of employees who may request management assistance.

Employees who are diagnosed with AIDS or HIV infection may continue to work if they are deemed medically able to work and can meet acceptable performance standards. The City of El Reno will provide reasonable performance standards and reasonable accommodation if necessary to enable these employees to continue working.

The City of El Reno recognizes that a supportive and caring response from supervisors and co-workers is an important factor in maintaining the quality of life for an employee with AIDS or HIV infection. Supervisors should be sensitive to the special needs of employees and assist them by demonstrating personal support and referring them to the Employee Assistance Program.

An employee's health condition is private and confidential. An employee with AIDS or HIV infection is under no obligation to disclose his/her condition to their supervisor or any other employee of the City of El Reno, unless they desire accommodation. Supervisors are expected to take careful precautions to protect the confidentiality of information regarding any employee's health condition, including an employee with AIDS or HIV infection.

On the basis of the current medical and scientific evidence, the City of El Reno recognizes that AIDS is a life threatening illness that isn't transmitted through casual personal contact under normal working conditions.

108. Automobiles

The City of El Reno provides parking facilities for the use of employees. Employees are to park only in designated areas.

The City of El Reno assumes no responsibility for damage to vehicles or theft of articles from vehicles while on City of El Reno workplace premises.

Any time an employee uses a personal car on City of El Reno business (which does not include commuting to and from work) with his supervisor's permission, the employee may be reimbursed at the IRS allowable rate per mile plus out-of-pocket expenses for tolls and parking if receipts are presented.

109. Conflict of Interest

The City of El Reno recognizes and respects each employee's right to privacy and to engage in personal activities outside the scope of his/her employment. However, the City of El Reno expects that all employees will avoid activities, which create a conflict of interest with their responsibilities to the City of El Reno. The City of El Reno also expects that its employees will observe the highest moral and ethical standards in any dealings in which they represent the City of El Reno.

The City of El Reno reserves the right to determine when an activity conflicts with the City of El Reno's interests and to take whatever action is necessary to resolve the conflict. If necessary, this action can include terminating the employee.

Employees who are aware of conflict of interest violations are obligated to report them to management immediately. Those who fail to do so will be subject to discipline. It is not necessary for an employee to observe the normal chain-of-command procedures when reporting conflicts of interest. Confidentiality of all employees reporting conflicts of interest will be protected.

110. Nepotism

No person related within the third degree of affinity or consanguinity (marriage or blood) to the Mayor, a member of the City Council or City Manager shall be appointed to any office position or clerkship or other service of the City, either on a full-time or part-time basis. No person related within the third degree of affinity or consanguinity to a Superintendent or Department Head may be appointed to or transferred to any office, position or clerkship or any other service of the City, which is in the same department where the Superintendent or Department Head is employed.

111. Drug and Alcohol Free Workplace Policy

The City of El Reno considers its employees to be its most valuable resource and is concerned about the health, safety, well being, and satisfactory work performance of all employees. The use, abuse, and dependence on alcohol and/or drugs can seriously affect the health of employees, jeopardize their own safety and that of others, as well as impair job PERFORMANCE. It is the policy of the City of El Reno to comply with all applicable state and/or federal laws in the administration of creating and sustaining a drug and alcohol free workplace.

It is the policy of the City of El Reno that the unlawful manufacture, distribution, dispensing, possession, use of, or being under the influence of, an unlawful controlled substance is prohibited in the workplace. The "workplace" for purposes of this policy includes any City offices or buildings, any City vehicles or equipment and any time employees are performing work for the City. Any employee determined to be in violation of this policy while on duty or when wearing a City of El Reno uniform, whether on or off duty, is subject to disciplinary action, which may include termination.

Tests required under the Department of Transportation regulations:

Provided, however, a testing facility shall release the results of the drug or alcohol test and any analysis and information related thereto, to the individual tested upon his request and only after presenting proof of identification.

11. CITY RESPONSIBILITIES UNDER LAW

- A. The City Manager is responsible for notification of the drug testing policy and procedure to employees as specified, and educating and training of employees, department heads, and supervisors as outlined.
- B. The City provides an Employee Assistance Program (EAP) and will coordinate city education and training relative to drug testing and the benefits of voluntary admission into the EAP.

Also, the City shall notify any other organization from which they receive grants or funding that requires such a notice.

112. Harassment Policy (To address all forms of harassment in this one policy.)

1. PROVISIONS APPLICABLE TO ALL EMPLOYEES

A. POLICY

The City of El Reno will not tolerate sexual harassment, or any other form of harassment based on legally protected characteristics of individuals.

B. WHO IS COVERED?

In short, anybody you encounter as you perform your job with the City. This includes all applicants and employees, regardless of position, title, grade, seniority or function, as well as customers, temporaries, visitors, independent contractors and vendors. Nobody is immune from this policy.

C. WHAT IS SEXUAL HARASSMENT?

Sexual harassment has been defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

- 1) Submission to such conduct is either made explicitly or implicitly a term or condition of employment.
- 2) Submission to or rejection of such conduct is used as the basis for employment decisions; or
- 3) Such conduct has the purpose or effect of unreasonably interfering with the work environment or creating an intimidating, hostile or offensive work environment.

Sexual harassment can be subtle or direct. It usually involves different genders, but may be committed by someone of the same gender. Sexually harassing behavior may include intentional physical conduct that is sexual in nature, sexual jokes and innuendo, sexual advances or requests for sexual favors, propositions, verbal abuse of a sexual nature, commentary about an individual's body, sexual prowess or sexual deficiencies, leering, touching, sexually-based obscene comments or gestures, display of sexually suggestive objects or pictures and any other type of physical, verbal or visual conduct of a sexual nature.

Sexual harassment may occur through various methods including personal contact, in writing, over the telephone, through e-mail, and on the intranet or Internet. The means by which sexually harassing behavior is conducted does not change its inappropriateness.

2. OTHER FORMS OF HARASSMENT

Other forms of prohibited harassment include conduct or actions based on legally protected characteristics, such as race, national origin, age disability or religion. Any physical, verbal or visual conduct that is based on a protected characteristic and which interferes with an employee's work environment, creates a hostile or offensive work environment, is used as a basis for employment decisions or made a term of employment can be harassment. All such conduct is prohibited.

A. OBLIGATIONS OF ALL EMPLOYEES

It is an essential responsibility for every employee to report any incidents of actual or perceived harassment. This includes harassment directly involving the employee, or where the employee is only a witness. Every employee must consider the obligation to report harassment as an essential function of his or her job.

B. PROFESSIONAL ENVIRONMENT

Our work environment is such that many individuals interact with each other every day. Differences of opinion, discomfort with personality traits and even anger are inevitable. Please understand that those types of reactions do not generally amount to sexual harassment, unless they are based upon gender. Nor would they be harassment based on another protected characteristic. We want our workplace to be both interactive and professional. Tolerance of others is encouraged.

C. HOW TO REPORT HARASSMENT

Allegations of harassment may be reported in any manner that effectively communicates the message you desire to send. This includes reporting in writing, orally, by e-mail, letter, memo or note, or any other reasonable means. The City of El Reno encourages all reports to be made in writing in order to have a clear and complete account of your perception of the situation. The most beneficial written reports will include at least:

- 1) The dates and times of all incidents of harassment;
- 2) The names of all harassers and victims;
- 3) A detailed factual description of the harassment; and
- 4) The names of all individuals present during the challenged conduct or who otherwise could corroborate or refute the facts alleged.

You should also remember that a good first step in resolving a problem of harassment is to directly confront the harasser, clearly communicating what behavior you deem unacceptable. In many instances, this alone will stop the undesirable behavior because the harasser does not realize the inappropriateness of the conduct. If you do not feel that such a step is appropriate, however, you may report the problem elsewhere as discussed below.

D. WHERE TO REPORT

We ask that you utilize the chain of command for any reports of harassment, i.e. report harassment to your supervisor or department head. If your supervisor or department head is involved in the activity you wish to report, or if you would prefer to make your report elsewhere, then report the harassment to the Human Resource Director or to the City Manager.

E. WHEN TO REPORT

Immediately. The more promptly an issue is raised, the more likely an appropriate resolution can be reached. Untimely reporting significantly increases the difficulty in conducting an investigation because the precision with which events and statements are remembered fades with the passage of time.

F. INVESTIGATIONS

In most cases, a prompt investigation will immediately follow the reporting of behavior believed to constitute harassment. Any such investigation will be designed to address the allegations made, but will usually include detailed interviews of the persons directly involved, witnesses, and review of any documentary items that tend to support or refute the allegations.

Investigations will be kept as confidential as practical, but in keeping with the City's intent to conduct a thorough review of all facts and events.

G. DETERMINATIONS

In instances where sufficient information is available, the City will promptly make factual and disciplinary determinations about the challenged conduct. However, you should keep in mind that some inappropriate behavior is not reflected in documents or witnessed by other people. In those situations, individual credibility determinations will have to be made, and the City will strive to do its best at making those determinations correctly. These credibility issues should not discourage witnesses and other available information from being presented. All determinations will be based upon a totality of the circumstances then known to the City.

H. APPEALS

If you strongly disagree with the determination reached during the investigation and/or the disciplinary decisions of the City, you may take the matter to the City Manager for review. Any such appeal must be in writing and set forth detailed information about your dissatisfaction with the determinations made and your suggestion on what the appropriate course of conduct should have been. Such an appeal shall be submitted within five (5) working days after the determination is made. Once received, your appeal will be reviewed, along with other pertinent information, and a decision will be reached. The decision will be communicated to you within ten (10) working days of receipt of your appeal.

I. DISCIPLINE

Any employee engaged in harassment will be subject to discipline, up to and including discharge. This includes first-time offenders. All disciplinary decisions will be made on a case-by-case basis.

J. RETALIATION

Any act of retaliation against an employee who reports, participates in an investigation of harassment or is otherwise involved in such an inquiry is strictly forbidden. Any employee found to have retaliated against another person will be subject to the same discipline as an employee who is found to have harassed another person.

K. FALSE CLAIMS

Harassment is a very serious matter; in part because of the way it can affect people and their careers. Accordingly, while all legitimate claims of harassment must be reported, such claims must never be fabricated or lodged without the utmost sincerity. Any person found to have intentionally falsified a claim of harassment, or who lodges a claim for malicious or improper reasons, is subject to immediate discipline, up to and including discharge.

L. TRAINING

Employees will be routinely trained on issues involving harassment. This will entail various forms and methods designed to heighten your awareness and education on the subject. You should also keep and regularly review a copy of this policy.

M. ADDITIONAL TRAINING

It is important to the City to have a well-trained and educated workforce on this subject. If at any time you do not believe you are sufficiently aware of what is acceptable behavior, do not understand this subject well enough, or simply need another copy of the City's harassment policy, please contact your supervisor, department head or the Human Resource Director for additional training or another copy of the Harassment Policy.

N. CONSENSUAL RELATIONSHIPS

Consensual relationships between employees are unwise. These relationships typically do not last and when over, provide the groundwork for one or both of the employees to make allegations of harassment against the other. This is an instance where the credibility determinations discussed above are quite difficult. The only way to avoid this situation is not to engage in this type of behavior in the first place. The best policy is to keep your private life private and out of the workplace.

3. PROVISIONS APPLICABLE TO DEPARTMENT HEADS AND SUPERVISORS ONLY

A. OBLIGATIONS OF DEPARTMENT HEADS AND SUPERVISORS

- 1) The City of El Reno's Harassment Policy requires all employees to report any type of harassment, including sexual or gender-based harassment and harassment based on other protected characteristics such as race, national origin, disability, age and religion. Supervisors and Department Heads have an additional duty to monitor the work force, discover inappropriate behavior and report such incidents when discovered.
- 2) It is important to recognize that not all comments about another person's behavior will be direct or clearly stated - some may be quite vague or indirect. You must always listen to the "message within the message," and be prepared to ask appropriate questions to determine if an employee is attempting to suggest that a harassment issue exists. You are always encouraged to involve the Human Resource Director or City Manager with this process. Once you receive a report or indications of a complaint of harassment, you are required to bring such report or complaint to the attention of the Human Resource Director or City Manager for investigation as specified below. You should not initiate an investigation on your own.

B. CONSENSUAL ROMANTIC RELATIONSHIPS WITH OTHER EMPLOYEES

- 1) Supervisors and Department Heads are strictly forbidden from having romantic relationships with subordinate employees. Failure to abide by this Policy may lead to disciplinary action up to and including termination.
- 2) Romantic relationships with other Supervisors or Department Heads are discouraged. They are not forbidden as long as there is no reporting relationship between the employees involved (one employee does not directly or indirectly supervise the other employee involved). If a reporting relationship develops after a romantic relationship begins, the employees involved will be subject to transfer, or in some cases, termination.

C. RECOGNITION AND REAFFIRMATION

Department Heads are encouraged to acknowledge the City of El Reno's Harassment Policy from time to time at staff meetings. Any such reiteration should be designed to remind employees of the Policy, their duty to comply and confirm that assistance is always available in the event an issue exists. These reaffirmations should be documented.

D. REPORTING TO PERSONNEL

Unless the conduct at issue directly involves the Human Resource Director, you are required to confidentially advise him immediately after a report of sexual harassment is

made to you. If the challenged conduct directly involves the Human Resource Director, you should immediately advise the City Manager.

E. DECIDING IF SEXUAL HARASSMENT HAS OCCURRED

You are neither required nor requested to determine the validity of a sexual harassment charge. The City of El Reno has a defined procedure for investigating allegations and making these determinations. You will likely be involved in the process if the charge or complaint involves you, but it must never be circumvented.

4. "OFF THE RECORD" OR "UNOFFICIAL" COMPLAINTS

There is no such thing! If you are told that harassment exists or if you suspect that harassment may exist based on your own observations or information reported to you, reporting immediately becomes an official matter, even if the party reporting or challenging the conduct requests that it not be considered official. You are reminded to report any such communication to the Human Resource Director and/or City Manager, Supervisor or Department Head immediately.

5. CONFIDENTIALITY

If you become involved in a sexual harassment issue in any way, you must keep the matter as confidential as practical, but in keeping with your duty to report to the Human Resource Director or other management. An investigation of most charges will occur and you are to participate openly and candidly. However, you are not allowed to discuss any aspect of a charge or investigation with any other person without prior approval. This is never a subject for general discussion or office gossip.

6. GENERAL PROCEDURES FOR INVESTIGATING SEXUAL HARASSMENT ALLEGATIONS

The following serves as a general outline to be used in investigating reports of sexual harassment. It is illustrative only, and will need to be customized to fit the particulars of each situation.

A. PURPOSE OF INVESTIGATIONS

The purpose of an investigation is to gather as much information about the challenged conduct as practical. Judgments about the credibility or persuasiveness of the information being gathered is to be avoided at this stage, leaving those decisions until the investigation is complete and all information can be reviewed together.

B. GENERAL CONSIDERATIONS

You should strive to maintain professionalism and objectivity throughout the entire investigation, determination and disciplinary process. Other considerations include:

- 1) Dignity - All persons involved with the process should be treated with dignity. This involves refraining from criticism that is not constructive, name calling, leveling unnecessary accusations, belittling, publication of private matters and the like.
- 2) Confidentiality - Complete confidentiality during an investigation is rarely ever, possible because of the number of people involved and the very nature of the investigatory process. Therefore, the goal is to keep the matter as confidential as practical under the circumstances of each case. Discussion with others should be only on a need to know basis, and should seldom involve anyone outside management other than the accused, the accuser and any witnesses. A valuable goal is to treat everyone involved in the entire process in the same manner that you would want to be treated under the same circumstances.
- 3) Sincerity and Objectivity - Every investigation must be conducted with the utmost sincerity irrespective of the investigator's initial opinion about the merits of the report. Simply because a claim does not appear at first blush to amount to harassment does not mean that the charge is not some other type of behavioral or environmental problem. If a person is concerned, enough to report the actions of another employee to management, the investigator should mirror that concern in the fact-finding process.
- 4) Timeliness and Length of Investigation - The basic rule for investigations is the sooner the better. Investigations should begin promptly after a report is made and generally conclude within three to five business days. Exceptions will occur, of course, but the exceptions should not be frequent. The length of most inquiries will be dictated by witness availability.
- 5) When Investigations are Appropriate - Most reports of sexual harassment should be investigated. Only when all statements and allegations of charges are accepted as true, yet still do not amount to sexual harassment should an investigation be waived.

C. DOCUMENTATION

Documentation is critical at every step of the investigation, determination and disciplinary processes. It provides an accurate record of what transpired thereby creating an objective portrait of the events for current and subsequent use.

Documentation of interviews must be absolutely thorough. The idea is to commit to writing everything substantive said by the interviewee. The best ways to accomplish this is to have the interviewee personally prepare a statement of events or confirm that the interviewers' notes are complete. The best documentation concludes with a written confirmation by the person being interviewed that the interview documentation is "complete, all inclusive and accurate."

Documentation of the determination stage should reflect the thought processes utilized and indicate how and why credibility decisions were made. All participants involved in this stage should be identified.

Disciplinary stage documentation should follow the same outline as the determination stage. Thought processes and alternatives discussed should be recorded. A complete record of the meeting in which discipline was announced should be made, specifically indicating what the party being disciplined said or did during the meeting.

7. PROCEDURE

Interviews - In virtually every instance, the following individuals need to be interviewed:

Accuser

Accused

Witnesses identified by both the accused and accuser

Your questions should be designed to elicit all information about the challenged conduct that is available. This should always include "who, what, when, where, who else and why" type questions. The more specific the detail the better. Dates and times are important, as are identification of other individuals who may have information related to incident or incidents being investigated. The questions asked should not embarrass or humiliate the interviewee keeping in mind that the sensitivity of the subject matter involved will require candid discussion of sometimes uncomfortable or awkward situations. This should not dissuade the interviewer from asking these questions in a polite and professional manner.

A. Who Should Conduct the Investigation?

This should be decided on a case-by-case basis, depending on the particulars of the allegations made and the identity of the people at issue. Generally, however, the Human Resource Director should lead the investigation. The investigation team should generally include the supervisor of the accused and, if practical and appropriate include both men and women. Interviews should normally be conducted by two members of the investigation team in order for perceptions and facts to be discussed and confirmed, and to assist in credibility determinations when necessary. There will be occasions when the person to be interviewed will feel uncomfortable with certain interviewers or with having more than one person conduct the interview. In those instances, the interviewer should be changed or only one person should conduct the interview. The objection to the number of interviewers must be well reasoned before the interview team is decreased in size; however, if the charge of sexual harassment directly involves the Human Resource Director, the appropriate investigation procedure should be reviewed with legal counsel before it is initiated.

B. Tangible Evidence

This includes any type of documentation ranging from notes, letters, diaries, and memos to electronic transmissions and recordings of in person or telephone conversations. The interviewers should ask every person interviewed to produce whatever type of tangible evidence they have to support or refute the positions taken. It would be beneficial to have each person interviewed confirm each piece of tangible

evidence that has been produced during the investigation and that it is all of which the interviewee is aware.

C. Factual Decision Making

The investigation team should lead this process. It is often beneficial to have a management employee involved who is not part of the investigation team to provide an "outsiders view" and to ensure objectivity. If practical, the decision making process should involve both men and women. Credibility determinations should generally be left to the interviewing team unless conclusions of that team are clearly erroneous. All documentation reasonably available or otherwise produced by those persons interviewed should be specifically identified, logged and reviewed prior to any decision being made. A single set of notes should be produced for the decision making stage, and confirmed and agreed to as being accurate by those involved. If a dissenting view exists, that person should be allowed to provide a written account of his or her opposition. Although not required, it may occasionally be appropriate to request that a non-management employee participate in the decision making process. This will further ensure objectivity and provide a different perspective. Before inclusion, however, any such person should be required to thoroughly review the City's Policies and have any questions about harassment standards answered. The non-management employee should also willingly serve in this role rather than be forced to serve. Typically, no one with less than five years of City of El Reno service should be selected for this position.

D. Discipline

The goal is to ensure that punishment is commensurate with the wrongdoing. This can range from oral counseling to immediate termination. Although harassment may not have been committed, discipline may be warranted for creating an inappropriate situation, allowing improper behavior or, if a management employee, allowing a situation to occur where allegations of misconduct could be made without fabrication. All discipline should be prompt.

E. Feedback

At the conclusion of the entire process, all parties should be advised of the outcome of the investigation and any disciplinary actions taken. In the event, harassment is not found to exist, the complaining party should be advised and an explanation should be given about why the conduct did not amount to harassment. If the aggrieved party is not satisfied with that outcome, an appeal may be lodged pursuant to City of El Reno's Harassment Policy.

ALL EMPLOYEES ARE AT WILL EMPLOYEES.

The regulations are intended to promote efficiency and economy, reward merit, provide for settlement of grievances, develop and maintain morale, and establish equitable and non-discriminatory standards for the classification and compensation of City employees.

203. Chain of Command/Form of Government

The City of El Reno operates under a council/manager form of government. The City Manager is appointed for an indefinite term with a majority vote by all City Council Members. The City Manager supervises the Departments of the City.

The Chain of Command is from the employee to their immediate supervisor to the Department Head, if the immediate supervisor is not the Department Head, and to the City Manager. Employees should follow the chain of command in resolving grievances, asking questions and making suggestion whenever possible. However, for those policy violations where the supervisory by-pass procedures are applicable, going to the next level of supervision is permitted.

204. Distribution of Employee Handbook

206. Exempt Employees Under the Fair Labor Standards Act

This provides general information concerning the definition of exempt employees, as provided by Section 13 (a) (1) of the FLSA and as defined by Regulations of the U.S. Department of Labor, 29 CFR Part 541. Positions which satisfy these criteria are exempt from overtime pay.

1. Characteristics of Exempt Positions

Section 13 (a)(1) of the FLSA exempts executive, administrative and professional employees from the minimum wage and overtime requirements of the FLSA, provided they meet certain tests regarding job duties and responsibilities and are compensated "on a salary basis" at not less than stated amounts. Subject to certain exceptions set forth in the regulations, in order to be considered "salaried, employees must receive their full salary for any workweek in which they perform any work without regard to the number of days or hours worked. This rule applies to each exemption that has a salary requirement. The special requirements which apply to each category of employees are summarized below.

a) Executive Exemption

During such periods, the employee shall, when ordered to active duty by proper authority, be entitled to a military leave of absence from the City employment without loss of status or efficiency rating, and without loss of pay. Employees will be required to submit official documentation to receive time off.

2. Leave Without Pay.

When circumstances justify, Department Heads may grant leaves of absence without pay for periods not to exceed one week. Additional leave without pay must be approved by the City Manager who shall be the sole determiner of the length of such additional leave. No leave will be granted for the purpose of enabling employees to accept temporary employment with other employers.

3. Civil Leave.

Employees shall be given necessary time off with pay while performing jury duty, appearing in court as a witness in answer to a subpoena, in an official capacity in connection with the City or as an expert witness either because of professional or observed knowledge, and/or performing emergency civil duty in connection with national defense. Employees excused from such civil duty during the employee's regular city duty hours shall return immediately to the employee's city duty station.

If an employee is involved in a personal court case, either as a plaintiff or as a defendant, in a suit not resulting from his duties with the City, he shall be granted Leave Without Pay unless the employee elects to utilize available vacation or compensatory time.

4. Workers Compensation Leave.

It is the policy of the City of El Reno to provide compensated leave for employees who incur disabilities, which can logically and medically be proved to be the result of

accidental injury arising-out-of and in the course of employment with the City. Workers Compensation Leave shall be the necessary absence from duty of an employee because of an injury suffered while properly performing the duties of the position without negligence or misconduct on the part of the employee. Any employee who shall receive payment for work performed for any employer other than the City while on approved injury leave shall be subject to immediate dismissal. This provision shall also apply to employees who are self-employed and perform work in their private occupation on approved injury leave.

5. Voting Leave.

Employees are required to show current, eligible voter registration cards to their supervisors prior to release for voting purposes.

6. Light Duty.

The City of El Reno has an obligation to its citizenry to insure that all employees are utilized to their fullest extent. In that regard there are times when an employee, for whatever reason, cannot perform the duties of their job classification. However these individuals can perform limited tasks without the risk of extending their recovery period or incurring further injury or prolonging the illness. Therefore it is incumbent on the chain of command to find work, which can be performed by the individual during the period that they cannot perform their normal job duties.

Upon the determination that an employee can/will be released by a medical authority to perform light duties, the Department Head or Supervisor will inform the Human Resource Director. The notice will be in writing and will identify the extent of work that can be performed by the employee and will include a copy of the medical release signed by a medical authority.

Upon receipt of the notice, the Human Resource Director will contact the employee and arrange an appointment to discuss the limits of their ability to perform tasks.

After the interview and determination of tasks that can be accomplished, the Human Resource Director will inform the City Manager of the tasks that the employee can perform and will contact the Department Head or Supervisor with positions that contain the tasks and duties the employee can perform.

A Department Head that is interested in utilizing the employee will notify the Human Resource Director, in writing, describing the nature of the work they wish the employee to accomplish and when they want them to report to work.

The Human Resource Director will contact the medical authority and determine if the nature of work is consistent with the light duty release. If it is, the Human Resource

Director will contact the employee and tell them that a light duty job has been identified, where they will be assigned, what they will be expected to do and the date to report. The Human Resource Director will also inform the department to which the employee is regularly assigned of the light duty assignment.

The Human Resource Director will also inform the department to which the employee is regularly assigned of the light duty job assignment. The Department Head will be responsible to insure that the employee reports to work and accomplishes the tasks assigned, however, the employee will be allowed time off to accomplish any meetings or appointments related to their illness or injury. The employee must perform the tasks assigned satisfactorily or the light duty will be terminated and appropriate action taken.

The employee will continue in the light duty assignment until the tasks are accomplished or a return to regular duties is authorized or determined not physically feasible.

The employee will continue to receive compensation and benefits from their assigned department, however, the department to which they are assigned to perform light duty will provide the department to which the employee is regularly assigned the necessary information to complete the time sheet.

7. Leave Donation Program.

There is a Leave Donation policy available to all full-time City Employees who have at least one year of service with the City of El Reno. Also the employee must have used or will be using all leave available to them before requesting participation in the Leave Donation Program.

The Leave Donation Program is for sick leave or compensatory leave only. Vacation, annual or any other types of leave do not qualify to be donations.

There will be a separate administrative policy covering the Leave Donation Program. Employees who may want to request to receive donated leave shall contact the Human Resources Department for the details and application form. The City Manager will approve or deny each request.

ALL EMPLOYEES ARE AT WILL EMPLOYEES.

Such periods of incarceration are outside the control of the City of El Reno and the employee cannot perform any productive labor during such periods.
3. An employee who is accused by indictment, complaint and information or charge of a crime, but not incarcerated, may be suspended without pay by the City Manager following a meeting between the employee and the Department Head or the City Manager. After the meeting, the employee will be notified of the reason for the suspension without pay. If the employee is later exonerated from all the accusations arising from such indictment, complaint and information, or charge, the employee will be reinstated to his or her former or similar position with full back pay and vacation, sick leave, compensatory time, longevity or retirement creditable service benefits. If the employee is terminated, the termination will be retroactive to the first day of suspension without pay. If the employee is not terminated the employee will be returned to their former or similar position with full back pay and vacation, sick leave, longevity or retirement creditable service benefits.

803. Corrective Action

1. "Warning" is a formal written record telling the employee that the employee's behavior or productivity must improve or some more forceful and serious disciplinary action will be taken. A warning may or may not be preceded by verbal counseling. A warning often will precede any of the actions described below. However, there are certain behaviors and activities, which will support other, more severe disciplinary actions on the first occurrence. Management's judgment as to the type and severity of the behavior or activity will determine the type of discipline to be employed. Nothing herein is intended to limit the right of the disciplining authority to initiate higher levels of discipline on the first incident, i.e., nothing in these guidelines is intended to restrict the City to the use of progressive discipline in all circumstances.

- A. The warning may be issued by a Supervisor, Department Head or the City Manager and must be presented and discussed with the employee. The Human Resource Director may be present as a witness.
 - B. A copy of the warning will be given to the employee and a copy will be placed with the individual's personnel records. The employee, witness and supervisor will sign the warning letter or form. If the employee refuses to sign the warning letter or form, a notation to that effect will be entered in the letter or form.
 - C. The warning, in addition to proper identification of all parties, should include where appropriate:
 - 1) The behavior or work performance for which the warning is being given and the specific improvements expected.
 - 2) The time limit within which improvement must be made.
 - 3) A specific offer on the part of management to assist the employee in the expected improvement.
 - 4) A statement of any prior counseling given to the employee.
 - 5) An indication, in general terms, of further action to be taken if there is delayed or insufficient improvement.
2. "Reprimand" is a formal written record of a serious disciplinary matter concerning an employee directing immediate and continuing improvement in the employee's productivity or behavior. As with a warning, the nature and seriousness of the employee's conduct or the offense will determine the level of discipline, and an employee may be given a written reprimand on a first offense, or more severe discipline, as determined by management. Nothing in these guidelines restricts the City to the use of progressive discipline in every instance.
- A. The reprimand may be issued by a Supervisor, Department Head, or the City Manager, and the reason for the reprimand must be presented and discussed with the employee. The Human Resource Director must be present as a witness.
 - B. A copy of the reprimand will be given to the employee and a copy will be placed with the employee's personnel records. The employee, Human Resource Director, and Supervisor will sign the reprimand letter or form. If the employee refuses to sign the reprimand, a notation to that effect will be entered in the letter or form.
 - C. The reprimand, in addition to proper identification of all parties, should include where appropriate:
 - 1) The behavior or work performance for which the reprimand is being given and the specific improvements expected;
 - 2) The time limit within which improvement must be made;

- 3) A specific offer on the part of management to assist the employee in the expected improvement;
 - 4) A statement of any prior counseling and warnings given the employee;
 - 5) An indication, in general terms, of further action to be taken if there is delayed or insufficient improvement; and
 - 6) Any other pertinent material, which may add to the issue of the disciplinary action.
3. "Suspension" is the temporary removal from duty and permanent withholding of pay of an employee for a specific period to bring about improvement in performance or behavior. Non-exempt employees are subject to suspensions as disciplinary measures. Exempt employees are not, except for serious safety violations. As with other levels of discipline, the nature and seriousness of the employee's conduct or the offense will determine the level of discipline, and an employee may be given a written reprimand restricts the City to the use of progressive discipline in every instance. The following procedures apply:
- A. Either a Department Head, with City Manager's approval, or the City Manager may impose a suspension without pay. Suspensions of more than ten (10) workdays must be sent to the City Manager for approval prior to taking effect for formal approval. Suspensions of ten (10) workdays or less require the approval of the City Manager, and then may be imposed by a Department Head.
 - B. A suspension must be levied during consecutive workdays and may not be broken into several periods of working days;
 - C. Prior to initiating a suspension action a meeting with the employee, the employee's supervisors and the employee's department head or the City Manager is to be held:
 - 1) The purpose of meeting is to review the facts and discover any additional information pertaining to the matter and to determine the employee's attitude for improvement. Consequently, a written personnel action form should not be completed before the employee has had the opportunity to discuss the situation.
 - 2) Prior to the meeting, the employee is to be notified of the specific violation, offense, conduct or misconduct alleged, a general overview of the evidence against the employee, and the employee will be given an opportunity to respond to the violations, offense, conduct, misconduct alleged and evidence. Information about the violation, offense, conduct or misconduct alleged should be set forth clearly and concisely so as to reasonably permit the employee to understand and answer.
 - 3) After conducting the meeting and considering the information presented, the Department Head will recommend appropriate action to the City Manager. If

the Department Head determines that a suspension of ten (10) workdays or less is warranted for the good of the service, he will forward such recommendation to the City Manager for approval before imposing the suspension. If he determines that a suspension of more than ten (10) workdays is warranted for the good of the service, he will make that recommendation to the City Manager. The City Manager will then impose the discipline he deems appropriate for the good of the service.

- D. A personnel action form and notice of suspension form will be completed for all suspensions. In addition, a written statement constituting the notice, and describing the violation, offense, conduct or misconduct and disciplinary action, will be prepared.
 - 1) Notice of suspension must be signed by the appropriate Department Head and the City Manager, and prepared in sufficient copies for direct and immediate distribution without delay to the Employee, the Supervisor, the Department Head, the Human Resource Director, and the City Manager as appropriate. The notice will be retained with the employee's personnel records.
 - 2) A uniform notice of suspension form may be prepared by the Human Resource Director. The form should include sufficient information to show the reason for the suspension, number of days suspended, acknowledgement by the employee, distribution, and other information deemed pertinent and necessary by the Human Resource Director.
 - E. If it has been possible to meet with the employee, notice of suspension should be handed directly to the employee before the employee leaves the work premises. In any event, proof of delivery is to be recorded; and
 - F. If the notice cannot be given to the employee before the employee leaves the work premises or cannot be delivered by the supervisor or his designee at the employee's home, the notice shall be mailed by U.S. Mail, certified return receipt requested.
4. Demotion or termination. The Department Head and the City Manager shall discuss and consider demoting or terminating the employment of an employee. The City Manager is responsible for making the determination of demoting or terminating the employment of an employee. An individual may be reduced in grade or in step. Demotion may be taken after other discipline has been taken or where the performance, offense or behavior is of such nature that demotion is warranted on a first offense for the good of the service. As with other levels of discipline, the nature and seriousness of the employee's conduct or the offense will determine the level of discipline, and an employee may be given a written reprimand on a first offense, or more severe discipline, as determined by management. Nothing in these guidelines restricts the City to the use of progressive discipline in every instance.
- A. A supervisor or superintendent may initiate a recommendation for a demotion or termination. The Department Head should consider the recommendation, and forward it to the City Manager together with the Department Head's

recommendation. The City Manager must consider the recommendation(s) and make the final decision authorizing the disciplinary action.

- B. Prior to initiating a demotion action, a meeting with the employee, the employee's supervisor and the Department Head or the City Manager is to be held:
 - 1) The purpose of the meeting is to review the facts and discover any additional information pertaining to the case.
 - 2) At the meeting the employee is to be notified of the specific violation, offense, conduct or misconduct alleged, and a general overview of the evidence against the employee. The employee will be given an opportunity to respond to the violation, offense, conduct or misconduct alleged and evidence of such. The violation, offense, conduct or misconduct alleged should be set forth clearly and concisely so as to reasonably permit the employee to understand and answer the allegations.
 - 3) After conducting the meeting and considering the information presented, the Department Head will make an appropriate recommendation to the City Manager, if the Department Head held the meeting with the employee. If the Department Head determines that demotion or termination is warranted for the good of the service he will make that recommendation to the City Manager who will make the final decision. If the City Manager determines that the employee should be demoted or terminated from City employment, he will sign the personnel action form. A personnel action form and the reason for such recommendation will accompany the Department Head's recommendation to the City Manager. The Department Head will immediately notify the employee of the City Manager's decision. If the City Manager holds the meeting with the employee, the City Manager will prepare and sign the personnel action form with the discipline the City Manager deems appropriate.
 - C. The Human Resource Director may prepare a uniform notice of demotion/termination form. The form should include sufficient information to show the disciplinary action taken, acknowledgement by the employee, distribution, and other information deemed pertinent and necessary by the Human Resource Director.
 - D. The employee subject to demotion or termination must be made aware of the employee's appeal rights in writing; and

In connection with any disciplinary action, a supervisor may recommend to whoever makes the final decision (the Department Head or the City Manager) that an employee be denied any pay increase for which the employee is actively under consideration. The City Manager shall make the determination of whether a denial of a pay increase is appropriate as a disciplinary measure.

ALL EMPLOYEES ARE AT WILL EMPLOYEES.

1000. Miscellaneous Policies and Procedures

1001. Attendance

Every employee is expected to report for work regularly and on time. Good attendance is a most important job requirement. Failure to meet this requirement could result in termination.

When employees are absent, others must perform their share of the work. In most instances, absent employees are paid for time not worked. In addition others who must substitute and accomplish the necessary work frequently receive extra and higher compensation in the form of overtime pay. No additional work is accomplished for these added costs. Lost time therefore must be controlled.

Employees must clear planned absences in advance with their supervisor, allowing as much notice as they can. When an absence is unplanned, due to illness, an emergency, or some similar cause, employees must report the absence to their supervisor by the starting time of their workday on the first day of the absence. In the case of an out of state absence of indefinite duration, they must report their status to their supervisor at least once every three working days.

Notification from another employee or relative is not acceptable except under emergency conditions. An excused absence may include personal or family illness, jury duty, bereavement, or other reasons that would require an employee to miss all or part of a scheduled workday. The employee should be prepared to substantiate the reason for his absence if asked. If the employee is absent frequently, the employee will be required to furnish documentation, including a medical statement from the employee's doctor.

If the employee fails to give proper notification of the employee's absence or if the employee's supervisor considers the employee's reason unacceptable, the employee will be charged with an unexcused absence.

Failing to report any absence properly can be grounds for disciplinary action, including dismissal. Excessive absences and lateness, even when reported, may also be grounds for discipline or dismissal.

Unsatisfactory attendance will result in disciplinary action, including suspension and discharge, as well as have an adverse effect on any promotion considerations and performance evaluations.

1002. Unauthorized Absence

Unauthorized absence is defined as the failure of any employee to report to work and the failure of the employee to call in and advise his or her supervisor of the reasons for the absence. Three consecutive days of unauthorized absence will automatically constitute resignation (job abandonment) and the employee will be terminated.

1003. Breaks

Each employee may at the supervisor's discretion, be granted two (2) relief time periods per day, one fifteen (15) minute period in the morning and one fifteen (15) minute period in the

afternoon. Relief time shall be taken only after having been on the job for a minimum of two hours, unless otherwise authorized by the supervisor.

1004. Meals

City Employees shall be entitled to time off to eat during each work shift, to be scheduled by the Department Head. Meal breaks are normally one hour, except for departments with established thirty- (30) minute meal breaks. Such mealtime shall be unpaid time unless the employee is required to remain at the worksite, in which case the Department Head or the City Manager may authorize a meal period as part of the time worked.

1005. Phone Usage - Personal Calls

No City employee is permitted to make personal long distance telephone calls without the authorization of the Department Head; and the employee, if allowed, shall reimburse the cost of any such long distance calls, in full to the City. Any calls of a personal nature shall be held to a minimum in both length and occurrence and should whenever possible be done on the employee's non-work time.

1006. Outside Employment

Employment with the City shall be considered the primary employment of all full-time employees. A City Employee shall not engage in outside employment unless his Department Head and the City Manager give such employee written approval. A copy of such approval shall be placed in the employee's personnel file. Outside employment shall be approved provided that such does not affect the efficiency of the employee and there is no conflict of interest. Employees may not engage in outside employment or business activities while on duty with the City, nor may City property be used for any purpose other than City business or functions.

1007. Residence Location

Residency is not required of City Employees except those specifically mentioned in the City Code. Other employees may reside wherever they choose; however, employees who are subject to call out for emergencies (police, fire, water, street, etc.) should live close enough to the City that they may reach their duty stations within no longer than (thirty) 30 minutes and be in range of radio or paging equipment.

1008. Dress Code

A neat professional appearance is a requirement of the City of El Reno. It is expected that all employees will exercise good judgment and dress appropriately for their jobs. There are several factors that you should take into consideration when determining appropriate dress, including but not limited to:

- The nature of your work;

- Safety considerations, such as necessary precautions when working near machinery or hazardous work areas; employees will be required to wear proper safety equipment at all time, without exception for any reason;
- The nature of their public contact, if any, and the normal expectations of outside parties with whom they will work; which means that dresses and/or skirts should not be shorter than 2" above the knee, no tank tops or tube tops, and shirts should never show midriff; men's jeans must be worn at the waist and their buttocks should never show;
- Casual Fridays - jeans are acceptable, however, shorts are not (except as otherwise approved due to the nature of the work);
- The prevailing dress practices of other workers in similar jobs.

When an employee's dress does not comply with established standards, the normal response should be to discuss the matter with the employee. If continued counseling fails to bring the desired response, the supervisor may initiate disciplinary action. The supervisor may send the employee home without pay to change clothes.

1009. Travel Expenses

City Employees will be reimbursed for expenses incurred while out of town on City business. Employees shall provide receipts and/or documentation of expenditures and turn them in to the Finance Department for reimbursement. The City may impose maximum amounts for which employees may be compensated for individual meals or daily meals and for accommodations. Employees traveling on City business must have permission of the Department Head and/or the City Manager in advance, and should make every effort to minimize expenses.

1010. Use of City Vehicles

Vehicles are purchased by and are intended for official City business only. **THE PERSONAL USE OF CITY VEHICLES IS PROHIBITED.** Only authorized, licensed, qualified personnel may operate City vehicles. City vehicles shall be operated in compliance with the appropriate traffic laws and the operator manual. Only authorized personnel may ride in or on City vehicles, unless prior approval is obtained from the City Manager. All City vehicles have a "City of El Reno" insignia on them, unless they are designated unmarked police vehicles. As such they are singled out to the public; therefore, they must be operated in a safe, courteous and professional manner so as to set an example to the public. Employees who are assigned a particular City vehicle shall be responsible for keeping it clean and in neat appearance. Unlawful or improper use of City vehicles is cause for disciplinary action, which may include termination.

1011. Tools and Equipment

City employees may be provided with specific tools and equipment to perform their duties. These tools should be kept in good condition and shall be returned to the City upon

termination of employment. Tools, which are broken or unusable, should be reported to the Supervisor immediately.

All employees are expected to exercise proper care in the use of all City property, tools and equipment. Any employee who loses City property or equipment, or who negligently damages the same, shall be responsible for the reasonable cost in replacing the items.

The personal use of City equipment or tools is strictly prohibited. Violation of this policy is grounds for disciplinary action up to and including termination.

1012. Courtesy to Citizens

City employees are employees of all the citizens and should be polite and courteous to citizens at all times. Under no circumstances should employees be rude or abusive to citizens, and should a citizen's conduct become abusive, the employee should refer the citizen to his immediate supervisor or handle it using normal operational procedures. Employees are expected to deliver prompt, thorough and efficient service to the citizens to the best of their ability. Customer service is a critical factor of the employee's performance and will be reflected on the performance evaluation system.

1013. Hours of Work

The City Manager may direct Department Heads to establish daily starting and quitting times for employees, duration of the lunch period, times and location of breaks, and general work schedules for various jobs and departments in order to most effectively complete duties and responsibilities.

1014. Debts

The City of El Reno employees are expected to pay bills promptly and maintain a good credit standing. It is embarrassing and costly when creditors are forced to collect delinquent bills. Therefore, two (2) garnishments, separate indebtedness, made to an employee's paycheck within a one (1) year period will be grounds for disciplinary action up to and including termination. Termination shall not be because of the garnishment, but because of the employee's failure to pay his debts and meet his obligations.

The employee will be charged, through payroll deduction, according to the allowable fees for each type of garnishment that is withheld. The City shall notify the employee when any garnishment is received. And at that time, the employee will also be advised of the fees relating to that garnishment.

ALL EMPLOYEES ARE AT WILL EMPLOYEES.

Contributions to all of the retirement systems are made by payroll deduction for the employee's contribution with the City also making a contribution, according to the terms of the respective retirement systems. Employees contemplating retirement should contact the Personnel Department at least six (6) months prior to the expected retirement date to receive information about retirement options and procedures.

2. Medical Examinations: As necessary, employees may be required to submit to medical examinations upon accident or injury by a physician of the City's choice. In addition, the City may require a physical examination at any time to determine where light duty work would be offered. Employees shall cooperate fully in these medical examinations and shall furnish truthfully all information about previous and current medical history as requested by a physician and other health service personnel. Failure to comply with any procedures required by the City will be grounds for denying injury leave pay (difference between the Workers' Compensation and full wages). In addition it may be cause to deny workers' compensation benefits.

1407. Safety Committee

City Safety Committee: The City-wide Safety Committee shall consist of the City Manager and the Department Heads of the Finance/Administrative Services, Police, Fire, and Public Works departments. They shall meet at least quarterly and discuss how the accidents may be prevented and safety of employees and citizens may be preserved. Accidents, which have occurred in the previous quarter, may be discussed and analyzed, and recommendations made to prevent recurrence. Potential liability hazards will be determined and steps planned to eliminate them. Progress of individual department safety programs may be considered and City-wide Safety Training and other programs will be planned and organized.

1408. Personal Protective Equipment

As part of the City's commitment to safety, it will furnish or make available to its employees such personal protective equipment as will be necessary to perform the work assigned in a safe manner. It shall be the responsibility of each employee to use the equipment when it is called for and in a manner for which it was designed. Equipment, which does not function as intended, should be reported to management for replacement and repair. Failure to wear

necessary personal protective equipment as required for the specific job shall be grounds for disciplinary action.

1409. Safety and Performance Evaluation

The use of safe working procedures and consideration of prevention of possible liability situations for the City will be considered as part of the performance evaluation of each employee. Periodic written performance evaluation will include safety as criteria for measuring employee performance. Care of equipment, materials, and supplies and their use in a safe manner will be a factor in merit evaluations, probationary evaluations and in determining eligibility for promotion.

1410. Employee Responsibility for Safety

The ultimate responsibility for safety rests upon each employee. City employees will be expected to perform their jobs in a manner, which will not endanger themselves, other workers, the public, or City vehicle, equipment or facilities. Employees will be responsible for reporting unsafe working conditions, equipment or situations to management on a timely basis and for ensuring that their working environment is as safe as possible.
